A SPLENDID OFFER! READ IT

The Countra will be greatly improved during the ensuing year. It will furnish all the locel news, notices of meetings, assessments, tax and other sales, markets, etc., etc., giving information that every resident of this county ought to have, and cannot deprive himself of, without being likely to lose many times the cost of the paper. The Village, Farm, Town and County Talk on subjects of total interest, will be anpplied fully in our columns, besides murb interesting reading. All this can be find at scarcely 4 cents a week, or

only \$2 for the entire year! And Better Still.

Almost everybody knows the high value of the American Agriculturist a journal that has just completed its 87th successful year. It is a large, beautiful journal, full of plain, practical, reliable, most useful information, for every man, woman and child. It prints every year 700 to 800 original engravings of labor-saving. labor-helping contrivances, many of them home made; also of animals, plants, construction of buildings, etc., etc. The American Agriculturist also constantly publishes exposures of the various humbuge and swindlers that prey upon the people with their ariful schemes. These exposures save teus of thousands of dollars to

its readers every year.

With all its splendid features, and an outlay of over \$25,000 a year in collecting and preparing information, engrav-ings, etc., the circulation is so large that it is supplied to subscribers, post-paid, for only \$1.50 each year.

We are happy to announce that we have made arrangements to furnish to cash subscribers. BOTH the Counten and the American Agriculturist, for the small sum of only \$2.65 a year, both post-paid, which is but a trifle over five cents a week. Who will not smoke one cigar less a week, or save five cents from some other needless expenditure, if necessary, to constantly supply himself and family with both of these journals? Remember, only \$2.05 pays for the Counter and the American Agriculturist, both sent post paid for a whole year. Please tell your neigh-

The American Agriculturist is just entering its 38th annual volume, and now is the lime to aubscribe. And Still Better. The publishers of the American Agriculturist have secured Marshall's new, large, magnificent Steel Plate, "THE PARMER'S PRIDE," one of the finest works of this great artist, whose pictures of Washington and Lincoln are of world wide reputation. So fine is this new work that Mr. Marshalt received \$3,000 for engraving

the sicel plate alone. It was so highly valued that thirty good judges subscribed \$25 each for 30 copies of the first or artist proofs, and no copy of the picture can be bought for less than \$5.00. But the publishers of the American Aericulturist, have just secured the Plate, and having large facilities for multiplying it, they propose to present this Splendid Engraving, on fine Plate paper, (22x28), delivered post paid, to every anbserber for volume 88 of that Journal, who sends

20 conts extra to cover cost of packing, mailing, and postage on the engraving. Therefore Subscribers can secure, through this office the Countain and the American Agriculturist both post-paid for one year; and also (delivered free) a copy of the abovenamed Steel Plate Engraving that will be a great adornment to every home—ALL THREE for only \$2.85.

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver. PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side: the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of Notice is hereby given to the creditors of James F.
